- Delivered Flat Pack. 10 minutes to assemble with 2 persons
- 5 Year warranty.
- Built rugged so it can be used in the most demanding venues.
- All Hardware is Marine grade Stainless steel
- Hot Dipped Galvanized to Australian Standards.
- Powder coated options also available.
- Bolt down lugs available on request

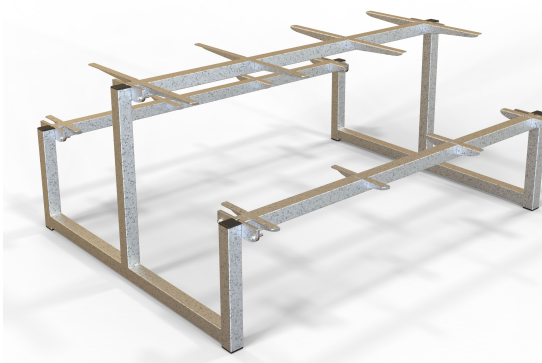

BUILT FOR OUTDOOR USE – STRUCTURAL INTEGRITY AND WEATHER RESISTANCE

Stainless Steel Hardware

Purpose made corner brackets made from 304/316 stainless steel.

Ease Of Assembly

2 persons can quite easily assemble a picnic bench in under 10 minutes. Please note that these benches are heavy, so the larger ones might need some additional person to help.

All Weather Resistant Frames

All tubular components are made from 2 or 2.5mmmm thick steel. As the frames are all Australian made, we have control of the entire production process to ensure a quality product.

No short cuts have been taken.

CHOICE OF SIZES

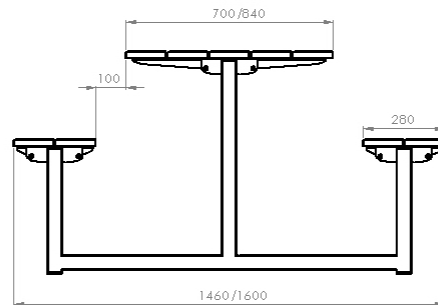

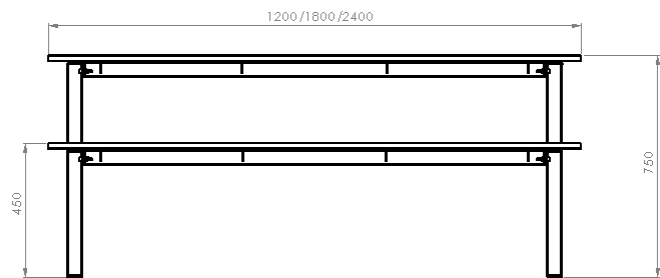

Length and Width

The wright picnic benches come in 3 lengths, 1200mm, 1800mm and 2400mm.

You have the option of a 700mm or a 840mm wide top. The width of the seat is 280mm. The length of the seat is the same as the table top.

Table height

The height of the table top is 750mm, while the seat is 450mm. We cannot make custom sizes with this range of picnic benches.

FRAME COLOURS

You can select any colour from Dulux Powdercoat finishes. Custom colours for larger projects

AUSTRALIAN MADE

All our products are 100% Australian made.
